

Sports Technology, Simplified.

The new USA Volleyball Member Management System will significantly improve the way your club registers athletes, builds teams, confirms athlete and staff eligibility, and receives player and staff cards.

Go Premium to make the process even smoother

Upgrade to SportsEngine HQ Premium, at a special discounted rate exclusively for USA Volleyball sanctioned clubs, to completely streamline your registration, club dues collection and roster approval process. PLUS, get additional features:

STREAMLINED SIGNUPS AND MEMBER MANAGEMENT

By bringing your season registrations online with SportsEngine, not only do you minimize your paperwork, but athlete information flows directly into the USA Volleyball Member Management System eliminating the need to import files from external sign up systems.

SET UP YOUR TEAMS FOR THE SEASON

Easily drag and drop players and staff onto rosters to enable full team management in the mobile app. Easily manage your team and track eligibility of players and staff. Plus, your teams will automatically sync with AES -- no more duplicate work!

STAY CONNECTED WITH CHAT, MESSAGES, AND NOTIFICATIONS

Run reports, create groups, and send messages to your members directly through SportsEngine HQ. Additionally, all of your teams will stay connected through real-time chat and they'll receive push notifications and texts for any changes to games or events.

CONTROL YOUR FINANCES

Request, collect, and track payments, set up custom (and editable) payment terms, utilize discount codes, and combine costs for player registration or anything else and receive your money in as little as 3 business days.

USA Volleyball Member Management System		Benefits	
Digital Player and Staff Carding	✓	✓	Receive digital player and staff cards at the time membership is purchased for a more streamlined, efficient experience.
Team Approvals	✓	✓	Get your teams approved in just a few clicks.
AES Rostering Integration	✓	✓	Once teams gain approval, rosters will be automatically synced with AES to ensure your official roster is in the right places, without needing to duplicate work.
Import Tool	✓	✓	Import player and staff information into the USA Volleyball Member Management System if using a third party platform for signups
Reporting of Players and Staff	✓	✓	Easily access, run reports, and take action on player, staff, and team information.
Club-wide Communication	✓	✓	Send messages to groups or individuals in the USA Volleyball Member Management System from a single location.
Training Videos and Resources	✓	✓	Learn how to use SportsEngine and the new Member Management System with help from training videos made specifically for USA Volleyball.
Help and Onboarding	✓	✓	Get expert advice and assistance from our dedicated support staff.
HQ Premium Tools and Features			
Signups and Registration	–	Special Rate	Streamline the process of getting players and staff into the USAV Member Management System
Rostering and Team Creation	–	✓	Player and staff information is seamlessly imported right into SportsEngine HQ from online registration forms and is used to create teams and gain team approval from USA Volleyball and your Region.
SportsEngine mobile app	–	✓	Keep coaches, teams, and families on time and connected all season long with team chat, real-time schedules, and RSVPs in the SportsEngine mobile app. The app is automatically unlocked for teams to use when rosters are created, with no additional set up work required.
Money Collection	–	✓	Gain full management of finances and collect money for whatever you need—season signups, in-season invoices, uniforms, team parties, or anything else. Create custom payment plans, offer discounts, and get your money fast—in as little as 3 business days.
